Game your way with a cool and easy to update chassis. The Stormwing Series are Gaming PCs with high performance components built into a sleek and compact body with unlimited possibilities. The Stormwing has an uncompromising mix of looks and functionality, making it easier for gamers to upgrade to up to 390mm cards and 360mm radiators.

The Stormwing Series are built to play today's games with future upgrades in mind.

AMD RYZEN 3 PROCESSORS

Using only the finest quality components and integrating the latest technological innovations delivers the best possible gaming experience. Rigorous quality testing under the most extreme conditions ensures a super reliable, high performance Gaming system.

STAY COOL WHILE GAMING

Cooling is essential for Gaming systems, especially while playing the latest games. Our Gaming Desktops have a customized thermal design to cool all essential components and make sure your system stays cool and runs stable at peak performance during long gaming sessions.

IMMERSE YOURSELF

The GeForce GTX 1060 graphics card is loaded with technologies that make it the perfect choice for the latest games. Powered by NVIDIA Pascal™, advanced GPU architecture, the GeForce GTX 1060 delivers brilliant performance that opens the door to VR and beyond.

True Quad Core Performance for Gaming & Computing

Featuring a Ryzen 3 with 4 processor cores for performance gaming and processing, with true machine intelligence to analyze and adapt to your needs.

Breathtaking Design

With a choice of cases housing all this high-powered hardware, our Gaming Desktops offer characteristic, breathtaking designs that are incredibly easy to use. Get the real gaming look you want!
